### GRADING SCALES

The laboratory grown diamond described in this Report (Report) has been graded, tested, analyzed, examined and/or inscribed by International Gemological Institute (I.G.I.). A laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). (B.I.emplays and utilizes those techniques and equipment currently available to I.G.I. including, without limitation, 10X magnification, contract-optical inplet louge, binocular interacescope, master color comparison stones, non-contract-optical instruments and/or processes as deemed appropriate by I.G.I. This Report includes advanced security features. A duly accredited gemologist of geweler can advise you with respect to the importance of and interrelationship between cut, color, clarity and carat
