The laboratory grown diamond described in this Report (Report) has been graded tested, analyzed, examined and/or inscribed by international Gernological Institute call and applications of the properties of a mined diamond, with the exception of being grown by man (a manufactured product). I.G.I. employs and utilizes those techniques and equipment currently available to I.G.I. including, without limitation, 10X magnification, correct triplet loupe, binocular microscope, master color comparison stones, non-contact-optical triplet loupe, and/or processes as deemed appropriate by I.G.I. This Report includes advanced security features. A duly accredited gemologist or jeweler can advise you with respect to the importance of and interrelationship between cut, color, clarity and carity and

weight.
