The laboratory grown diamond described in this Report (Report) has been graded, tested, analyzed, examined and/or inscribed by International Gemological Institute (I.G.I.). A laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). (E.I. employs and utilizes those techniques and equipment currently available to I.G.I. including, without limitation, 10% magnification, corrected importance of the product of the
