The laboratory grow diamond described in this Report ("Report") has been graded, tested, analyzed, examined and/or inscribed by International Gemological Institute ("IGI") based on its chemical, physical, optical and/or spectroscopic characteristics, and based on its chemical and optical properties as a mined diamond, with the exception of being grown by IGI. IGI's Report is based on the information provided to IGI by the client, and is the current information currently available to IGI, including, without limitation, 10X magnification, corrected triplet loupe, binocular microscope, master color comparison stones, non-contact optical spectrometer, and/or other instruments and/or processes as deemed appropriate by IGI. This Report includes a disclaimer of IGI's liability for the accuracy of the Report, and a disclaimer of IGI's liability with respect to the importance of and interrelationship between cut, color, clarity and carat weight.
