47%

58%

69%

Long

The diagram shows a diamond-shaped object with various proportions indicated by dimension lines and percentages. The top horizontal edge is labeled 58%. The left vertical edge is divided into two sections: the top section is labeled 16.5% and the bottom section is labeled 47%. The right vertical edge is labeled 69%. The bottom edge is labeled Long. The text 'Thick To Very Thick' is positioned to the left of the diamond.

Red symbols indicate internal characteristics.
Green symbols indicate external characteristics.

The laboratory growth diamond described in this Report ("Report") has been graded, tested, analyzed, examined and/or inscribed by International Gemological Institute ("IGI"). A laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a natural diamond. IGI is a diamond grading laboratory owned by a man (a manufactured product). IGI employs and utilizes those techniques and equipment currently available to IGI, including, without limitation, 10X magnification, corrected triplet loupe, binocular microscope, master color comparison stones, non-contact optical spectrometer, and other devices and instruments used in the diamond trade. IGI uses the instruments and/or processes as deemed appropriate by IGI. This Report includes advanced security features. A duly accredited gemologist or jeweler can advise you with respect to the importance of and interrelationship between cut, color, clarity and carat weight.

THIS REPORT IS NEITHER A GUARANTEE, VALUATION, NOR APPRAISAL OF THE GEMSTONE DESCRIBED HEREIN. PLEASE REVIEW THE LIMITATIONS AND RESTRICTIONS SET FORTH ONLINE. FOR THE FULL AND COMPLETE INFORMATION OF OUR CLIENTS, LIMITATIONS AND DISCLAIMERS, PLEASE GO TO WWW.IGI.ORG OR CALL 1-888-BUY-IGI.
